## SUMMARY

IT intern at Itaú Unibanco within the Dynamics 365 Center of Excellence, completing a degree in Information Systems at SPTech. Experience coordinating technical demands for systems integration and process optimization in a corporate environment, collaborating with cross-functional teams to build scalable solutions that raise operational efficiency and reduce cost.

## EXPERIENCE

**IT Intern, Dynamics 365 CoE — Itaú Unibanco** Jan 2026 – Present  
São Paulo, Brazil

- Refactoring the environment's observability layer to align with the bank's mandated observability architecture.
- Implemented RBAC following an audit standard aligned with the bank's compliance requirements.
- Ongoing support and feature development for the micro-frontend orchestrator PCF, plus work on tagging, distributed-systems authentication, and integrated flows across the Dynamics environment.

**Game Developer — Pomegranade Studios** Apr 2024 – Jan 2025  
São Paulo, Brazil

- Backend development and systems architecture for digital games, applying clean-code patterns and software engineering best practices.
- Collaborated on game mechanics design and internal APIs used across multiple areas of the team.
- Documented requirements and wrote unit tests, ensuring quality and scalability of delivered features.

**Marketing Intern / Game Developer — Messier Data & Creative** Mar 2024 – Sep 2024

- Managed the company's social media, defining posting schedule and content.
- Game design for a full level of a title in production at Messier.

**Social Media Manager — Scalt Logística Express** Jan 2023 – Mar 2024

- Responsible for planning and managing the company's social media.

## EDUCATION

**São Paulo Tech School (SPTech)** Feb 2025 – Dec 2028  
B.A., Information Systems

**FECAP**  
High School, Digital Game Programming
